# Chroma Key and Digital Screens for Hire

Screens are available in various material types, colours and sizes to suit your production.

Most screens come with a frame to suit, and 1 x Dutchman joiner per screen. This is a narrow fabric piece to join screens together, or cover frame edges.

Texas Productions also carry most support equipment you would need. Frames, stand kits, C stands, shot bags, digi paint, digi tapes, digi card, suits, hoods, gloves, flooring material, floppies and all your screen needs.

### Key:

<b>L</b> – Lycra material. Good for large screens where weight can be a rigging issue.	<b>S</b> – Spandex. Intense colour, but a bit “shiny”. Very dynamic stretch. Cannot be joined using Dutchmen.
<b>F</b> – Robust heavy duty flooring material. Can be used draped over stand kit for cyclorama effect.	<b>V</b> – Veltex. Our most popular screen material. Strong knap for even lighting, spongy backed dense material, hangs and stretches extremely well. Can be joined using Dutchmen.
<b>C</b> – Painted heavy-duty canvas.	<b>W</b> – Wool felt, heavy knap on available in Chroma green.
<b>N</b> – No	<b>Y</b> – Yes

BLUE	SIZE In feet	DESCRIPTION		PRICE per DAY	Frame	Dutchman	Material s
